ERRATA:

Red of face, we confess to some beauts,

this volume. Not counting the little ones,

some of which we've found, and all of

which you the reader have probably

found, these are the ones we're admitting

to the record:

March-April, pp. 18-20, misplaced lines

should read: "There are at the present

time seven year-round marine stations

along the Pacific Coast. . . Pacific Marine

Station, a branch of the College of the

Pacific, was founded at Dillon Beach in

1947 but did not open for year-round

activity until 1957. Hopkins Marine Sta-

tion at Pacific Grove is the oldest Marine

station on the Pacific Coast." It must have

been the repetition that confused both

editor and printer.

July-August, "In This Issue"—for Whence

the Havasu? read Whence the Havasupai?

For 29 read 28.

September-October, p. 3, caption—for 1879

read 1871. For 1958 read 1959. Page 23,

caption—for A Honolulu dockside read A

Hilo dockside. (Apologies to Hilo C. of C.)
